**TO: COLLISION REPAIR INDUSTRY**

**POSITION STATEMENT: Advanced Driver Assistance System Components**

FRANKLIN, TN — Nissan North America is committed to maintaining the integrity and performance of Advanced Driver Assistance Systems (ADAS) to ensure maximum driver and occupant safety. The use of salvaged, aftermarket, or any secondary-market radars, cameras, sensors, or related ADAS components is strictly prohibited. Components outside new Genuine Nissan Original Equipment Parts may have been exposed to prior collisions, improper storage, or non-approved manufacturing processes, which can compromise system reliability and functionality.

After any ADAS component removal, replacement, and even vehicle alignment, the proper calibration procedure must be performed using the Nissan CONSULT diagnostic software and following the Electronic Service Manual (ESM) instructions. Only Nissan-approved targets, calibration equipment, and processes should be used during these procedures. Please reference IPSB/25-707 for additional scanning and calibration guidelines.

For additional information, please see the Electronic Service Manual (ESM).

**Parts Warranty**

INFINITI New Vehicle Limited Warranty and Limited Warranty on replacement parts do not apply to any parts other than new Genuine INFINITI Original Equipment Parts.

INFINITI will not be responsible for any subsequent repair costs associated with a vehicle and/or part failure caused by the use of parts other than new Genuine INFINITI Original Equipment Parts.

For additional collision information: Collision.INFINITIUSA.com

Refer to the Electronic Service Manual (ESM) prior to any repair or replacement being performed. Information specific to each model may be found at <https://www.INFINITI-techinfo.com>.
